

JOHN M. DENNIS

AI CURRICULUM & INSTRUCTIONAL DESIGN SPECIALIST

AI/ML Subject Matter Expertise | Technical Education | Generative AI

Novi, MI | 248.444.8239 | johnmartindennis@gmail.com | [LinkedIn](#) | [Curriculum portfolio](#) | [AI projects](#) | [GitHub](#)

PROFESSIONAL SUMMARY

AI curriculum and instructional design specialist with extensive experience creating technical learning content and delivering live instruction in artificial intelligence, machine learning, data science, programming, and analytics. Translates complex concepts into clear, engaging learning experiences for beginner and professional audiences.

CORE EXPERTISE

CURRICULUM & INSTRUCTION:

Curriculum Development • Instructional Design • Lesson Planning • Technical Writing • Assessments • Hands-On Labs • Project-Based Learning

AI & MACHINE LEARNING:

Generative AI • LLMs • Prompt Engineering • RAG • Agentic AI • Machine Learning • Deep Learning • NLP • Transformers

PROFESSIONAL EXPERIENCE

FULLSTACK ACADEMY

Manager of Curriculum & Instructional Design for AI

Remote

Apr 2025 – Jul 2026

- Designed and delivered live, instructor-led training for a six-month AI and Machine Learning bootcamp for working professionals.
- Created AI/ML lessons, Google Colab notebooks, PowerPoint presentations, demonstrations, and hands-on learning activities.
- Developed and taught machine learning, deep learning, transformers, generative AI, LLMs, RAG, and agentic AI curriculum.
- Guided hands-on AI projects using OpenAI, Hugging Face, LangChain, and LLaMA.
- Provided live technical guidance and troubleshooting as students developed and debugged AI/ML applications.

CHEGG

AI/ML Curriculum Developer & Data Science SME

Remote

Jun 2020 – Apr 2025

- Designed technical curriculum reaching thousands of students across data science, analytics, engineering, software, cybersecurity, and AI programs.
- Authored lessons in Python, SQL, Tableau, Excel, PowerPoint, machine learning, and data analytics.
- Created 500+ educational assets, including activities, assessments, coding exercises, instructional videos, and automated evaluations.
- Built hands-on learning experiences with Google Colab, Replit, pgAdmin, Qualified, Learnosity, Contentful, Loom, and Kaltura.
- Developed AI-powered instructional chatbots that provided contextual guidance during self-directed learning.
- Resolved curriculum and technical issues while coordinating internal teams and vendors through Jira and Asana.

CLASSROOM TEACHING EXPERIENCE

UNIVERSITY OF MICHIGAN – DEARBORN

Dearborn, MI

Computer Science Instructor, Adjunct Faculty

Developed lessons and delivered in-person undergraduate computer programming instruction for the Department of Computer Science & Engineering.

SCHOOLCRAFT COLLEGE

Livonia, MI

Computer Science Instructor, Adjunct Faculty

Developed lessons and delivered in-person classroom instruction in programming, Excel, and financial analysis for adult learners.

ADDITIONAL PROFESSIONAL EXPERIENCE

FORD MOTOR COMPANY

Emerging Technology & Development Tools Specialist

Dearborn, MI

Sep 2016 – Dec 2019

- Supported Ford's emerging-technology and AI strategy through research, technical evaluation, training, and adoption initiatives.
- Developed and delivered AI and emerging-technology training, demonstrations, and interactive lab experiences for hundreds of employees.
- Translated AI and cognitive-computing technologies into practical concepts and use cases for technical and business audiences.
- Evaluated conversational AI and chatbot technologies and recommended options supporting enterprise adoption.

FORD MOTOR COMPANY

IT Project Manager

Dearborn, MI

Jan 2008 – Sep 2016

- Led complex enterprise technology projects from planning through implementation, coordinating stakeholders, vendors, schedules, deliverables, and priorities.
- Applied Agile and Scrum practices to organize work, manage changing requirements, resolve issues, and keep projects on track.
- Implemented global solutions supporting Ford's Legal Office, compliance, eDiscovery, matter management, due diligence, and executive collaboration.
- Designed an eBilling cost-recovery model generating approximately \$250,000 in annual savings.

EDUCATION

MASTER OF SCIENCE, COMPUTER SCIENCE & ENGINEERING Oakland University | Rochester, MI

BACHELOR OF SCIENCE, ELECTRICAL ENGINEERING Michigan State University | East Lansing, MI

TECHNICAL & INSTRUCTIONAL TOOLS

AI/ML:

Generative AI • LLMs • RAG • Prompt Engineering • NLP • Transformers • TensorFlow • Keras • PyTorch • Scikit-Learn • Hugging Face • LangChain

PROGRAMMING & DATA:

Python • SQL • pandas • NumPy • PySpark • Tableau • Excel

LEARNING & CONTENT:

Google Colab • PowerPoint • Contentful • Qualified • Learnosity • Replit • pgAdmin • Loom • Kaltura

AI & DEVELOPMENT:

OpenAI • ChatGPT • Gemini • Copilot • LLaMA • GitHub • VS Code • SageMaker

PROJECT & COLLABORATION:

Project Planning • Agile • Scrum • Kanban • Cross-Functional Collaboration • Vendor Management • Jira • Asana
